Phone: (555) 888-7777

Location: Atlanta, GA

Summary:

Results-driven Java Developer with extensive experience building enterprise-grade backend systems. Skilled in Spring Framework, microservices, and designing scalable REST APIs.

Skills:

- Java 8+, Spring Boot, Spring MVC
- Hibernate, JPA, MySQL, Oracle
- REST API, Microservices, OAuth 2.0
- Maven, Jenkins, Docker, Kubernetes
- JUnit, Mockito, Integration Testing

Professional Experience:

Java Developer at EnterpriseTech | Jan 2016 – Present

- Developed microservices architecture for financial applications.
- Improved system reliability by implementing fault tolerance and circuit breakers.
- Designed RESTful APIs consumed by mobile and web clients.
- Automated build and deployment pipelines with Jenkins and Docker.
- Mentored junior developers and led technical workshops.

Software Engineer at CodeWorks | Jun 2013 – Dec 2015

- Built backend services with Spring MVC and Hibernate.
- Participated in database schema design and query optimization.
- Wrote unit and integration tests to ensure code quality.
- Collaborated with cross-functional teams in agile environment.

Education:

Bachelor of Science in Computer Science | Georgia Institute of Technology | 2009 – 2013

Additional Information:

- Speaker at JavaOne 2021 on “Building Resilient Microservices.”
- Contributor to open-source Java libraries.
- Active member of local Java user groups.
