Location: San Francisco, CA

Summary:

Highly skilled Frontend Developer with 5+ years of experience designing and implementing user-centric, responsive websites and web applications. Expert in modern JavaScript frameworks and libraries, including React and Redux, with a strong focus on performance optimization and cross-browser compatibility.

Skills:

- HTML5, CSS3, JavaScript (ES6+)
- React, Redux, Webpack, Babel
- Responsive Design, Mobile-First Development
- CSS Preprocessors: SASS, LESS
- Version Control: Git, GitHub, Bitbucket

Professional Experience:

Frontend Developer at TechSolutions Inc. | Jan 2019 – Present

- Led development of a high-traffic e-commerce platform with over 2 million monthly users.
- Optimized application performance, reducing load times by 30% through code splitting and lazy loading techniques.
- Collaborated with UX/UI designers to implement pixel-perfect user interfaces.
- Integrated RESTful APIs to dynamically update content and enhance user engagement.
- Mentored junior developers, improving team code quality and efficiency.

Junior Frontend Developer at WebStartups | Jul 2016 – Dec 2018

- Developed reusable React components and implemented routing with React Router.
- Converted Photoshop designs into interactive HTML/CSS pages.
- Conducted A/B testing to improve conversion rates on landing pages.
- Worked closely with backend developers to ensure seamless API integration.

Education:

Bachelor of Science in Computer Science | University of California, Berkeley | 2012 – 2016

Additional Information:

- Participated in multiple hackathons, winning “Best UI/UX” award in 2018.
- Active contributor to open-source React libraries on GitHub.
- Regular speaker at frontend development meetups and conferences.
