Phone: (555) 555-9999
Location: Portland, OR

Summary:
Python Developer focused on backend web development, automation, and data processing. Experienced in Django, Flask, and building RESTful services with strong emphasis on testing and maintainability.

Skills:

- Python 3.x, Django, Flask
- REST API, SQLAlchemy
- PostgreSQL, MySQL
- Celery, RabbitMQ, Redis
- Docker, AWS (Lambda, S3)

Professional Experience:

Python Developer at DataLabs | Mar 2017 – Present

- Developed RESTful APIs and asynchronous task queues.
- Automated ETL processes and data pipelines.
- Improved app scalability with Docker and Kubernetes.
- Worked with frontend teams to integrate APIs and optimize user experience.

Junior Python Developer at SoftSystems | Jun 2014 – Feb 2017

- Maintained and enhanced Django web applications.
- Created unit tests and contributed to code reviews.
- Assisted in database design and query optimization.
- Participated in agile development processes.

Education:

Bachelor of Science in Computer Science | Oregon State University | 2010 – 2014

Additional Information:

- Contributor to Python open-source automation tools.
- Volunteer instructor for local coding bootcamps.
- Passionate about clean code and continuous learning.
